Our live online workshops guide you through tutor facilitated mock advocacy assessments. You can choose a workshop based on a criminal case or a civil case.

You’ll practise analysing a case and preparing for the hearing. Then you’ll see examples of advocacy and have the opportunity to practise some advocacy yourself.

We recommend that you complete the e-learning course before attending the workshops.

As a result of attending a workshop you will

- have practised analysing a mock assessment
- be better at preparing notes
- understand how to better control your nerves
- have seen examples of advocates making submissions and reflected on what went well and what could be improved
- have practised making submissions
- better understand how to develop your own skills

• Mock assessment – crime or civil
• Preparing for advocacy
  ◊ Analysing the case
  ◊ Making notes
  ◊ Controlling your nerves
• Analysing video examples of advocates making submissions
• Practical exercises
• Reflecting on your skills
